

Technical information

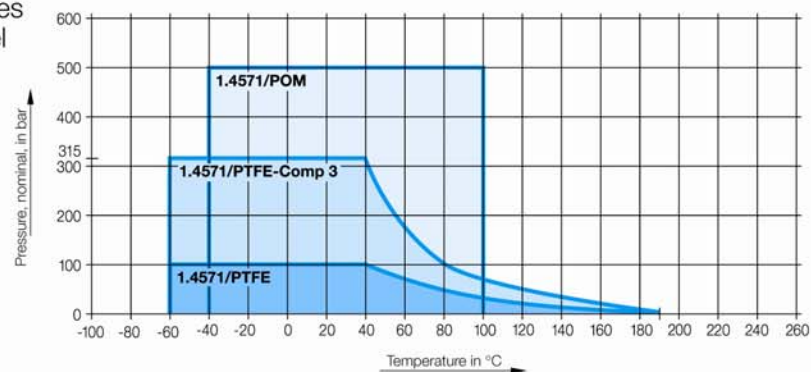

Pressure/temperature diagrams

Please observe max. pressure for ball valves!

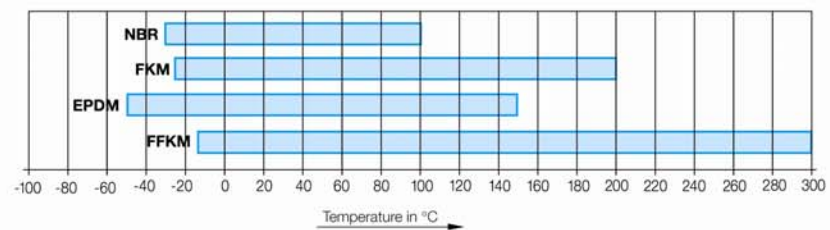

Pressure/temperature diagram 1 for ball valves made of steel

Pressure/temperature diagram 2 for ball valves made of stainless steel

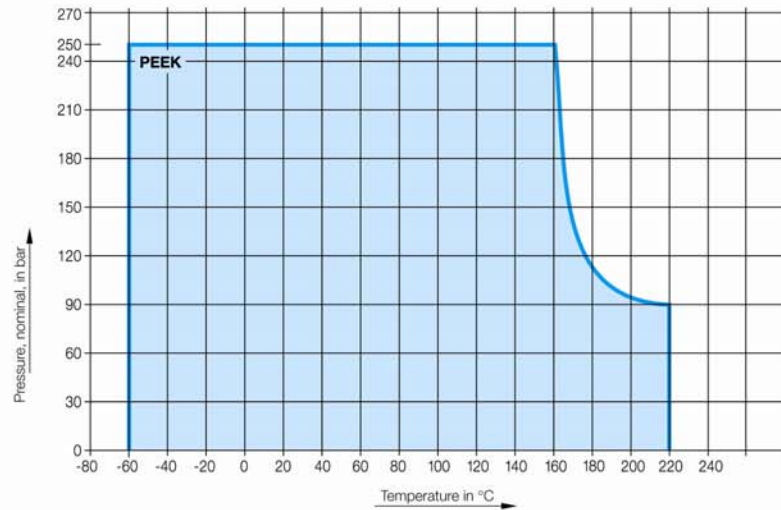

Temperature-range for elastomers

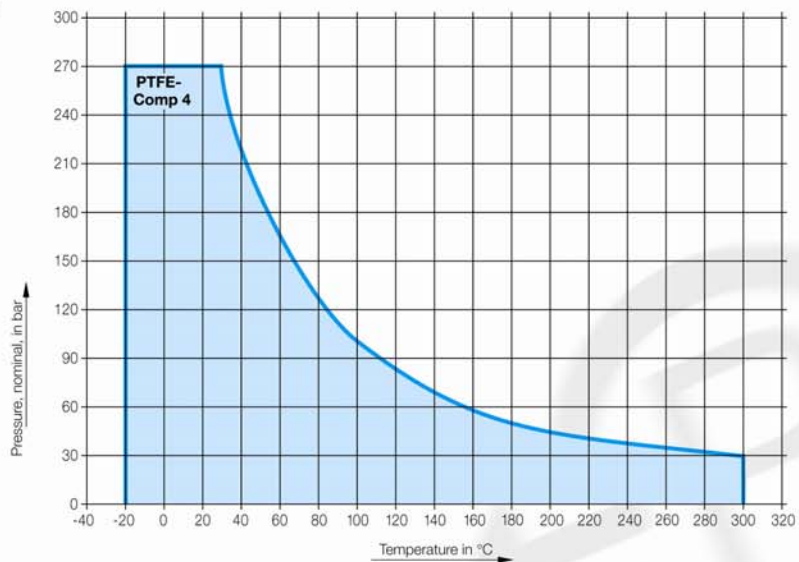

Please observe max. pressure for ball valves!

Pressure/temperature
diagram 3 for ball valves
made of steel*
and stainless steel

*) Free-cutting steel down to -10° C

Pressure/temperature
diagram 4 for ball valves
made of steel*
and stainless steel

*) Free-cutting steel down to -10° C
